DETAILED ACTION

Claim Rejections - 35 USC § 102

Applicant has correctly assumed that the Examiner refers to a 102(e) rejection instead of a 102(b) rejection. The corrections are as followed.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Menzel et al. (US Publication No. 2003/0078515). Please see the office action of December 23, 2005 for body of rejection.

Response to Arguments

Applicant's arguments filed April 24, 2006 have been fully considered but they are not persuasive. Applicant states, "[They] are unable to locate any disclosure within the Menzel reference relating to a 'baseline audio stimulus representing a level of patient consciousness'..." It should be noted that the definition of consciousness is the quality or state of being aware especially of something within oneself," "the state or fact of being conscious of an external object, state, or fact," or "awareness" (www.webster.com). Thus, the Examiner contends that Menzel et al. does in fact calibrate the system to a baseline audio stimulus representing a level of patient consciousness [0091], or patient awareness to baseline audio stimulus.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action.
